

**Project 01**  
**CS2803 – WDB**  
**Spring 2016**

For this project you are to create a biographical web page about yourself. The page must contain the elements laid out as displayed below. Points will be given for elements placed as indicated. An additional 0 - 10 points will be given based on the overall style of the page (color scheme; font selection and sizing; picture selection; layout; how well written). The links do not have to be active. We will be activating them in subsequent assignments.

To turn in your page: Within your Cloud9 folder, create an “html” folder and a “css” folder. Inside the “html” folder name your page “home.html”. Inside the “css” folder name your css styles file “styles.css”. Link the styles file into your .html file.

Your name <span>+5</span>	<span>+5</span> Home	<span>+5</span> Hero	<span>+5</span> Sports	<span>+5</span> Music
